Project SYNCERE's Robotics Team Places 4th in Statewide Competition

On December 12, 2009, FIRST Robotics held its' statewide First Tech Challenge at Illinois Institute of Technology. The Perspectives Calumet High School Team, which was coached and mentored by Project SYNCERE, placed 4th in the State of Illinois. We are extremely proud of the hard work and dedication that the students put into their design.

Students at Dumas Technology Academy utilize Engineering Projects to enhance their Math and Science Skills

This school year Dumas Technology Academy has partnered with Project SYNCERE to bring its' innovative approach to learning math and science in their classrooms. Project SYNCERE is engaging students at Dumas with engineering projects to show them how their math and science are related to the "Real World." To date, students at Dumas have completed the following projects: Model Rocket Design, Catapult Design, Mousetrap Car Design, Robotics, Marble Roller Coaster, and Windmill Design.

Rocket Launch Day at Dumas Technology Academy.

Project SYNCERE partners with Chicago Public Schools (CPS) Office of Academic Enhancement

Project SYNCERE has partnered with CPS Office of Academic Enhancement to provide its' STEM Professional Development Workshops for schools across the city. These in-class workshops, provide teachers with the necessary training on how to properly integrate project based learning workshops into their curriculum to motivate and capture the interest of students. The lists of schools include; Miles Davis Magnet Elementary School, Dunne Elementary Math, Science & Tech Academy, Dixon Elementary School, Hendricks Elementary School, Spencer Elementary School, and Caldwell Elementary School.
